## 1 This document plays around with formatting and layout.

The following is a piece of code.

---

### Listing 1 test.R

---

```
# create cheesecakes
cheesecakes <- 2+2

# print cheesecakes
print(cheesecakes)
```

---

[1] 4

Short codes can also be inserted directly in the text: I'd like to order 4 pieces of cheesecake.

Someone else who might like some cheesecake is Waltz (2000).

this is a spelled wrong.
