8. October, 2025

There should be an invisible code chunk here that loads the packages and the dataset.

Below this line there should be a descriptive statistics table.

	control (n = 9)[1]	**treatment** (n = 24)[1]	**p-value**[2]
milex_gdp_sipri (%)	2.10 (1.49)	1.49 (0.47)	0.5
gdp_cap ($1,000)	41.68 (12.80)	42.59 (20.72)	0.6
gdp_growth (%)	2.17 (1.05)	2.29 (1.00)	0.8
debt_gdp (%)	78.72 (66.28)	70.06 (41.80)	>0.9
un_rate (%)	5.05 (1.52)	8.09 (4.35)	0.026*
trade_rus_gdp (%)	0.40 (0.40)	3.87 (4.68)	<0.001***
safe_sec (0 - 5 index)	1.94 (0.57)	1.75 (0.24)	0.8
lib_dem (0 - 1 index)	0.73 (0.13)	0.73 (0.13)	0.8
rile (-100 - 100 index)	−2.28 (21.69)	−2.87 (12.22)	0.8
pop (millions)	80.31 (103.22)	20.36 (24.97)	0.026*
dist_rus (1,000 km)	9.77 (4.58)	1.92 (0.74)	<0.001***

[1] Mean (SD)

[2] Wilcoxon rank sum exact test. *p<0.05;* ***p<0.01;*** p<0.001

Below this line the additional descriptive statistics table should appear.
